

GV-NVR-R200-24

autoIP™ NVR Appliance for 24 cameras based on a Dell IU Rack-mountable Server with 3 year hardware warranty and software service plan

Summary

This autoIP™ Network Video Recorder is based on the Dell PowerEdge server solution, and is designed for small to mid-sized surveillance projects.

The appliance includes pre-installed autoIP™ software that is licensed for up to 24 cameras. Each appliance has a 3 Year ProSupport warranty from Dell that includes complete protection on all components and on-site technical support. A 3 year software service plan further protects the investment by including unlimited software technical support and free autoIP™ feature upgrades.

The autoIP™ NVR solutions are designed to reduce installation time and maintenance costs of network video systems. autoIP™ is an “open” platform that is compatible with a variety of major IP camera manufacturers.

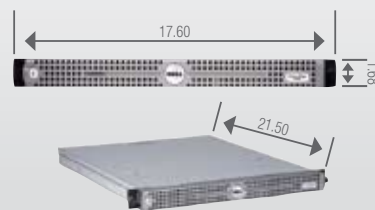

Features

- Supports up to 24 cameras
- 2TB of Video Storage
- Pre-installed autoIP™ software
- Ease of installation and ease of use
- IT friendly: Auto camera discovery and configuration with full support of DHCP
- 3 Year Dell ProSupport warranty includes on-site technical support on all components
- 3 Year software service plan includes free autoIP™ upgrades, new features and unlimited phone support
- See autoIP™ software for full system compatibility and feature sets
